With everything that is going on this past year we thought it would be great to get together as maths leads to share knowledge, swap ideas and discuss all things maths-related.

In the February sessions, we will discuss the Advance Information released on 7th February as well as finding out about supporting resources and the opportunity to ask questions to a representative from the exam boards.

This network will be supported by an online community that you can [join here](#) today. Feel free to join the discussions, network with other local maths leads and look through the resources.

Once registered, you will receive a link to the sessions.
